Anna and I ended the work on the second version of the Tutorial / Online Course. This version will next week posted on the SCM server, and we will extend access to everyone for 3 months who paid the course.

The main changes in the textbook / online course are new chapters and sections:

- a. The heads 9 and 10 were rewritten, which in the new edition are called system entrepreneurship and system management.
- b. The chapter 2 added a section of negative usefulness of labor.
- c. Section 4 Added Section Depression: paintings of the world, dissatisfaction, life skills and attention
- d. After each chapter added a list of questions for repetition.

The following meaningful adjustments have been made:

- a. Changed the qualifications of SSM skill, which is now based on the European Qualification System (EQF).
- b. The table 12 has been added to the table on how the new qualification of SSM skill is connected with the model of a person-platform, including how the skill of collections, mental skills and applied skills with an increase in qualifications are growing.
- c. The concept of intelligence instead of the physical part of the brain is now represented as a functional part of the brain. Corrected his mistake in synchronization with the last version of the textbook formation for the formed.
- d. The concept of an abstract world has been changed, which is replaced by the concept of mental space about the request of Peony.

The editors of all chapters, taking into account the comments and proposals of students of past streams and sent comments. All involved a lot thank you !!!

In addition, the textbook was sent to the reader's publishing house, in which it will be released in two volumes: 1. Peace in man and man in the world, 2. Systems of a figure changing the world. Taking into account the great work (including with illustrations), the electronic and paper versions will have to wait.

We remind you that on September 19, the eighth stream of course starts. Systemic self-development: Introduction to systemic thinking with the participation of the teacher. The number of locations on the course is limited. This is the last flow at the current price, from the 9th stream the cost of the course will increase.
